ANNUAL REPORT OF THE PATNA MUSEUM FOR THE YEAR E DINI 31st
March 1920.

1. *Committee of management*.—In the course of the year under report there were changes among the members of the Managing Committee of the Patna Museum. Firstly, the Hon'ble Mr. E. H. C. Walsh, C.S.I., I.C.S., President, proceeding on leave, made over charge to the Hon'ble Mr. H. McPherson, C.S.I., I.C.S., who again becoming Secretary in Home Department of the Government of India, made over the duties of President to the Hon'ble Mr. L. F. Morshead, I.C.S. Secondly in place of Mr. Dikshit, Rai Bahadur Dayaram Sahni became Superintendent. Later on he was followed by Mr. V. Natesa Aiyar. They successively became members of the Committee. The vacancy caused by the resignation of the Hon'ble Mr. C. E. A. W. Oldham, C.S.I., I.C.S., has not been filled as his successor has not been nominated as yet. The Committee met twice during the year and disposed of current duties. A third meeting was called on the 27th March 1920, but failed for want of a quorum.

The Museum authorities are extremely grateful to Messrs. E. H. C. Walsh and H. McPherson for the keen interest they took in the improvement of the Museum during their Presidentship.

2. *Staff*.—Mr. M. Ghosh, Curator, having received an injury necessitating an operation, could not do field work in the months of January, February and March. Babu Sadhu Suran, the Chemical Assistant, who was under training with the Imperial Archaeological Chemist, was advised by the doctor to leave Calcutta on account of ill-health, and was permitted by the President to join the Patna Museum on condition that he would complete the remaining portion of one year's training at some future time. Subsequently he fell ill and was on medical leave from 3rd December 1919 to 29th January 1920 and was again on leave from the 9th of February till the 9th of June 1920. Being offered the Government of India Scholarship of the Imperial Archaeological Department, Babu Madho Swarup, Epigraphist of the Patna Museum, was relieved on the 1st of March 1920. The question of appointing his successor is under consideration. Babu Srikant Sahai, clerk, having obtained a post in the Excise Department, Babu Kanai Lal Banerji, clerk, Patna College, has been selected in his place, being the most competent among the applicants for the post. The pay of the Daftari has been raised to Rs. 15—1—20 and he has been made a Daftari-marksman. An additional marksman clerk on Rs. 25 has been sanctioned for one year to bring to an end the arrear work of the Museum at an early date.

3. *Working of the Museum*.—It is gratifying to record an all-round progress in the different sections of the Museum. The labelling of the exhibits and arranging them in new show cases are in progress, and it is hoped to open the Museum to the public at an early date.

4. *Education and research work*.—The Curator delivered a lantern lecture to the members of a Bengali Literary Society on the development of Art in Ancient India. During the year a small guide book on the monuments of Pataliputra with a map was written by the Curator, who is also engaged in making a prehistoric survey of the province, and has collected some interesting palaeoliths from the Sanjai valley near Chakradharpur, Singbhum. He is also making copies of prehistoric paintings which should form a very interesting feature of the Museum.

5. *Acquisitions*.—During the year under report new additions were made in all the sections of the Patna Museum, and a start has been made in

the Art and Industrial sections. The specimens received in the different sections are :—

Archæology	1,089
Estampages, single	75
Do. duplicate	334
Do. triplicate	26
Plaster of Paris Casts	36
Picture Gallery	28
Numismatics	516
Mineralogy	240
Ethnology	44
Art	5
Industry	169
Other acquisitions	5
			Total	...	2,367

Of the acquisitions 1,633 were presented and the rest were either purchased or acquired. Detailed lists of exhibits added to the Patna Museum up to the 31st of March 1920 are given in Appendices C to M as desired by the Director-General of Archæology.

6. *Archæology*.—Of the prehistoric objects acquired by the Curator from the Sanjai valley near Chakradharpur, the most important are a borer a scraper, two points and some other implements. Mr. Anderson of Chakradharpur presented two scrapers to the Museum for which acknowledgments are due.

Colour copies of four rock-paintings from Singanpur have been also acquired by the Curator. One is of a Kangaroo-like animal; another of the figure of the Sun; the third is a hunting scene and the fourth is a figure of an ape-like man. These representations evidently demand close scrutiny before anything can be predicted about them. A wooden platform is needed for their study. His Honour Sir Edward Gait has presented 13 copper axe-heads. We have also received from the Cambridge University in exchange for four copper bar-celts three bronze celts through His Honour Sir Edward Gait and Professor Sir William Ridgeway.

Among the Archæological objects of the historic period, the most important are the Basarh antiquities. Last year the Museum received the seals. Now it has received terracotta objects, potteries, metal and other objects. There are still specimens left which were with the late Mr. Pandey. To the generosity of the Government and the intervention of the Hon'ble Mr. E. H. C. Walsh the Museum is indebted for the purchase of the Keith collections at Bishunpur. Among the sculptures purchased, the seated Buddha figure, the two Bodhisattva images (Avalokitesvara and Maitreya), the inscribed slab and the leoglyphs deserve mention.

The Maharaja of Sonpur has presented to the Museum some stone sculptures, two coins, a copper-plate and bronze statuettes for which he deserves our warmest thanks. The Curator also collected a very interesting head of a figure of Harihara of the Sunga period. It was found in a field south of the town of Pataliputra. The Museum is indebted to His Honour Sir Edward Gait for a copper-plate containing ferry rates obtained from Rai Bahadur Sakhi Chand of Puri.

7. *Ethnology*.—Rai Bahadur Sarat Chandra Roy, M.A., B.L., has obtained for the Museum a bark cloth still occasionally used by the aboriginal tribe in the district of Manbhumi, and the Exhibition that was held during

the Peace Celebration at Bankipore contributed one fire drill and some ornaments of the Hos of the Singhbhum District, for which the thanks of the Museum Committee are due.

8. *Numismatics*.—This subject is dealt with in the Report of the Coin Committee.

9. *Coin Committee*.—The Committee's report is in Appendix A.

10. *Picture Gallery*.—Photographs of important prehistoric objects from Asura sites have been taken and are kept in the Museum. It has been decided at a meeting of the Managing Committee that for the present an album of 100 photographs of important sculptures and architectural buildings of the province should be kept in the Museum. The Superintendent, Archaeological Survey, has been asked to supply these photos.

11. *War Collections*.—A maxim gun used by the Turks has been deposited for exhibit in the Museum under the orders of Government.

Through the Government of India Her Royal Highness Princess Mary has presented one bullet Pencil Case, one New Year card and a small photo of herself in an embossed Brass box from Her Royal Highness the Princess Mary's Sailors' and Soldiers' Christmas Fund for which the Museum offers its grateful thanks.

12. *Estampages*.—Babu Madho Swarup, M.A., who took estampages of all inscriptions of Bihar in the Indian Museum has made them over to the Museum. The estampages taken in Patna, Shahabad and Gaya districts are also in the Museum, as well as all estampages of inscriptions in the Patna Museum, in Cuttack and Puri Districts. Estampages of the Kharavela inscription have also been taken.

13. *Casts of Sculptures*.—Babu Shyamapada Misra, Modeller, during the year under report was working in the Indian Museum. He has taken casts of interesting mediæval sculptures and Gandhara images as well as of some of the Bharhut reliefs and the headless Patna image identified by Mr. Jayaswal with one of the Saisunaga kings.

14. *Geology*.—The Geological Section of the Patna Museum received three instalments of rock and mineral specimens from the office of the Director-General of Geological Survey. The same authority deputed Mr. C. S. Fox who visited the Museum in the month of July 1919 and arranged the whole of the section on a scientific basis. One show case is now devoted to mica which is one of the most important minerals of the province. Then come minerals and rocks associated with mica. Then another show case with minerals and rocks of the province arranged scientifically. Lastly, there has begun a type collection of minerals and rocks. The Museum is indebted to Dr. Hayden (now Sir Henry Hayden), the Director-General of the Geological Survey, and to Mr. C. S. Fox of the same department for their valuable assistance in organizing the Geological Section.

15. *Art and Industry*.—A beginning has been made in these sections. Of Art objects a silver Hucca and a sketch of Bhuvanesvar temple on palm leaf deserve mention. The Maharaja of Sonpore is to be thanked for presenting two pieces of Tassar cloth with decorated borders. Different classes of timbers, ropes, fibres, grasses from which paper is made, medicinal herbs, etc., have been received through the Exhibition, held on the occasion of the Peace Celebration, from the Forest Department for which acknowledgments are due to the authorities concerned.

16. *Library*.—Besides Gazettes and Reports, the total number of books and pamphlets added to the library during the year under report was 22. The total number in the catalogue is 184.

17. *Government Grants*.—The Local Government, in their letter No. 287-E., dated the 25th April 1919, made a grant of Rs. 2,193 for the purchase and conveyance of the Keith collection at Bishnupore, District Gaya. They have also given a grant of Rs. 1,200 to meet expenditure on account of Plaster of Paris, Rs. 500 for the purchase of books for the Coin Cabinet, Rs. 150 for the purchase of a scale for the same and Rs. 3,000 for the equipment of the museum with show cases, etc.

18. *Donation.*—The Maharaja of Sonpore has given a donation of Rs. 6,000 for show cases. One room will be made the Sonpore Room and all the show cases will be labelled "Presented by Sir Bir Mitrodaya Singh Deo, K.C.I.E., Maharaja of Sonpore". But for this unique gift, it would not have been possible to open the museum at an early date. The Committee is therefore specially grateful to the Maharaja for his munificent gift.

19. *Finances.*—As will be seen from Appendix B, receipts and expenditure during the year under report amounted respectively to Rs. 74 and Rs. 18,318-10-10, and the net cost to Government of maintaining the Museum was thus Rs. 18,244-10-10.

20. *General.*—During the year the Curator was out of head-quarters for 93 days and actually on tour for 63 days. He visited Rajgir, Nalanda, Calcutta, Chakradharpur, Singanpur, Benares, Bombay, Poona, Karli, Bhaja, Ajanta and Mathura. The important points in connexion with the tour are:—

In November he was on tour for 19 days. Being invited by the Oriental Conference at Poona, the Curator was permitted by the Hon'ble Mr. H. McPherson in consultation with the Director-General of Archaeology to proceed to Bombay to study the arrangement of antiquities in the Victoria and Albert Museums. He specially commends the arrangements in the Natural History and Geological Sections. The prehistoric collection is small but interesting, as some of the Neolithic Exhibits were found on the Malabar Hill. From Bombay the Curator went to Poona. He had taken with him a representative collection of prehistoric objects, which were arranged chronologically in the Tata Hall of Poona, and attracted the attention of His Excellency the Governor of Bombay and other visitors from different parts of India. From Poona the Curator went on to visit the Karli and Bhaja caves, where he believes that the scene hitherto identified with Suryya is nothing but the worship of the Wheel of Law by Asoka or some Buddhist king. On the side of the door opposite to the one containing the above scene is the worship of the Bodhi tree by some Buddhist king. The cave contains some interesting inscriptions not edited up to this time. With the kind assistance of Mr. R. D. Banerji, Superintendent, Archaeological Survey, West Circle, the Curator visited the excavated fort of the Peshwas and the temple on the Parbati Hill, Poona, as well as the fort of Singhagadh. From Poona the Curator went to the Ajanta caves in the company of Professor Bhandarkar, Rai Bahadur Pandit Dayaram Sahni and others. He considers that it would be of interest to depute the modeller, Babu Shyamapada Misra, who knows painting, for two months every cold weather to copy select paintings at Ajanta to be kept for the study of the development of Indian Art in the Museum. From Ajanta the Curator visited Mathura and examined sculptures in the Museum there. His attention was drawn to the Brahmanical sculptures, particularly of Krishna upholding the Hill of Gobardhan of the Kushan period, and also to the Perkham statue. The latter with other sculptures of the class in the Mathura Museum closely resemble the Patna Statue. It has got the same arrangement of hair, and the technique of dress is the same.

At the Exhibition held on the occasion of the Peace Celebration at Patna in December 1919, the Curator was requested by the General Secretary to organize an Archaeological Court. He did so, and obtained for the purpose some rare paintings and manuscripts from Rai Bahadur Radha Krishna Jain and Pandit Balgobinda Malaviya, including one which he believes to represent the historic hall of Chaleh Satun at Patna where the darbar of Farrucksiyar was held. At the instance of the authorities of the Exhibition he wrote a small guide book of Pataliputra in conjunction with Babu Ram Lal Sinha, a local Archaeologist, a copy of which was presented to His Honour Sir Edward Galt. The map of Pataliputra, which was drawn under his supervision, is the first map of Patna showing the historical places within it. At the exhibition the Nalanda stone sculptures and important antiquities from Sir Ratan Tata's excavation at Pataliputra were on view.

L. F. MORSHEAD,
President, Managing Committee, Patna Museum.

APPENDIX A.

REPORT ON THE BIHAR AND ORISSA PROVINCIAL COIN CABINET FROM
1ST APRIL 1919 TO 31ST MARCH 1920.

1. Mr. M. Ghosh, Curator, Patna Museum, took over charge from the Hon'ble Mr. E. H. C. Walsh, President, Managing Committee, Patna Museum, as Secretary, Coin Cabinet, in anticipation of Government orders on the 22nd April 1919, which has since then been confirmed by Government letter No. 335-E., dated the 13th April 1919.

2. As already noted in the last report the closing number in the register was 911. Since then 316 coins have been added. Nos. 912 to 969 are punch-marked coins which have been studied by the Hon'ble Mr. E. H. C. Walsh and an article has been written by him for the *Journal* of the Bihar and Orissa Research Society. Serial Nos. 970 to 1087 are a set of billon and copper coins of Mughal Emperors. Some of them were purchased by Lieutenant-Colonel Nevill for the sum of Rs. 25. Nos. 1001, 1004, 1008, 1028 and 1036 have been presented by him from his own collection. He also presented serial Nos. 1088, 1089 and 1090 on the 19th April 1919 and also Nos. 1091 to 1133 on the 22nd April 1919.

3. The Museum is greatly indebted to Lieutenant-Colonel Nevill for this generosity. With these additions the important Mughal and Pathan coins are fairly complete.

The pressing wants of the Coin Cabinet are—

- (1) Cast and die coins of ancient India,
- (2) Indo-Parthian coins,
- (3) Indo-Scythian coins,
- (4) Kushan coins,
- (5) Andhra coins,
- (6) Gupta coins, and
- (7) Mediæval coins of India.

These gaps can only be filled up if suitable purchases are made with the approval of the Committee.

4. Of the 316 coins added since 1st April up to 31st March 1920, 90 coins are silver, 22 gold, 88 billon, 104 copper and 12 brass. Of the coins added 51 were presented by Lieutenant-Colonel Nevill, 14 by Muhammad Umar of village Islampur, district Patna; 10 coins from the Basarh excavations of Dr. Spooner were received as loan from the Government of India; 110 coins were purchased and the rest were Treasure Trove coins. Of the Treasure Trove coins, a hoard of 96 gold coins of the Sultans of Delhi found in Barbigha police-station, district Monghyr, deserves notice. Out of these there are two coins which are unique. But as detailed reports of the two have not been received as yet, they cannot be discussed in this report.

The Curator purchased about 30 coins at Rajgir. They are copper punch-marked and cast coins, with the exception of one which is a coin of the Gupta Emperor, Chandra Gupta II. These coins have not been cleared and therefore not listed and added to the catalogue.

APPENDIX B.

ANNUAL REPORT

OF

THE MANAGING COMMITTEE

OF

THE PATNA MUSEUM

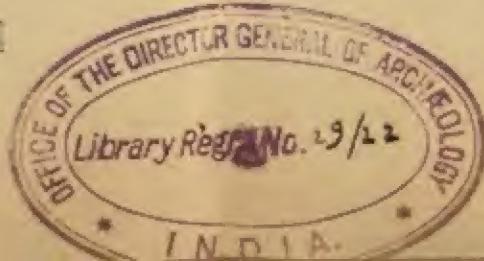

FOR

THE YEAR ENDING 31st MARCH 1921.

INTRODUCTORY.

With the close of the year ending March, 1921, the position of the Patna Museum has reached a very definite stage in its short history. In the few years since it has been started the primary idea of the Committee has been to collect and preserve objects, and records of objects, of Provincial interest and material of ancient character, which may throw light on the continuity of national development in our Country.

These endeavours have elicited considerable interest and have, on the whole, achieved a success which could not have been confidently predicted.

The principal difficulties have arisen owing to the fact that there is no Museum building in which the materials collected can be either properly housed or exhibited.

At present the collections are, temporarily, kept in a small building which constitutes the northern appanage of the High Court.

Apart from its being structurally entirely unsuited for the purposes of a Museum it is already quite inadequate for the exhibition of what has been received up to date. But, on the other hand, it has been thought that, notwithstanding all these imperfections, the Museum should be thrown open to the inspection of the public : and this will be done in the forthcoming year. The Committee hopes that it will be realized that in rooms, such as are at its disposal, it has endeavoured to display, to the best of the Curator's ability, those objects which will prove of the greatest general public interest.

It is also desirable to state, for the information of serious students, that there exists at their disposal much matter of varied character which is not or can not be displayed to the general public.

Until a suitable Museum building is erected the Committee feels that it must crave the indulgence of those who visit it—both expert and non-expert members of the public—for the many deficiencies which they will, no doubt, at once, observe. The Committee very earnestly hopes that the opening of the Museum to the Public and the consequent appreciation of its national value will stimulate interest and produce not only generous gifts of material but possibly, handsome endowments from important Provincial personages which will enable the Museum of this great, though new, Province to take its place with those of Bengal, Bombay or Madras.

1. *Committee of management.*—In the course of the year under report there were several changes amongst the members of the Managing Committee, Mr. V. Natesa Aiyar, B.A., Superintendent, Archaeological Survey; Central

Circle, and *ex-officio* member of the Committee proceeded on leave and was succeeded by Pandit Hirananda Shastri, M.A. A vacancy, caused by the resignation of the Hon'ble Mr. C. E. A. W. Oldham, C.S.I., I.C.S., was filled by Sir John A. Bucknill, Kt., K.C., M.A., (Oxon), F.Z.S., M.B.O.U., Hon'ble Member S.A.B.V.; who subsequently was appointed President in place of the Hon'ble Mr. L. F. Morshead, I.C.S., who resigned that position. The Committee met twice during the year and disposed of current duties.

The Committee is extremely grateful to the Hon'ble Mr. L. F. Morshead, I.C.S. for the keen interest which he took in the improvement of the Museum during the term of his Presidency.

2. *Staff*.—Babu Sadhu Saran, the Chemical Assistant, resigned his post on the 9th March 1921. The appointment of a successor is under consideration.

The office of Epigraphist having been sanctioned for a further period of one year, Babu Ashutosh Sircar, M.A. was selected for the appointment on the recommendation of the Deputy Director-General of Archaeology and commenced his duties on 3rd December, 1920.

Babu Kanai Lal Bannerji filled the position of head clerk from the 1st of April, 1920 being on probation for six months; but, as he was unable to produce the requisite certificate of local domicile, could not be confirmed in the appointment.

The post of marksman clerk has been sanctioned for a further period of one year.

An additional chowkidar for the Museum has been asked for.

3. *Working of the Museum*.—It is gratifying to be able to report substantial progress in the work of the different sections of the Museum. The exhibits are now, to a large extent, displayed in show cases and arrangements have nearly been completed so as to enable the Museum to be opened for the inspection of the Public during suitable hours.

4. *Education and Research work*.—The Curator was away on tour, from the month of January to the end of the year, engaged in the exploration of early Caves and in search of prehistoric relics. He has been fortunate enough to obtain near Chakradharpur very interesting palaeoliths and a human skull of ancient date. At Singanpur, Raigarh State, Central Provinces, he copied paintings which seem to belong to palaeolithic times. Very interesting paintings, apparently of the palaeolithic and neolithic periods as well as of later ages, were also discovered and copied in the Mirzapur District, United Provinces. These paintings seem to be unique as, so far as is known, they are not in the possession of any other Museum in India. The Curator is of the opinion that they reveal certain special aspects of the life of prehistoric man in India and show a continuity of Art tradition which, commencing in the Palaeolithic era follows down to the beginning of the Historic period to which the Buddhist art of Bharhut, Bodh-Gaya and Sanchi belong. An illustrated report of these Prehistoric explorations is in course of preparation.

5. *Acquisitions*.—During the year under review considerable additions were made to the exhibits in the various sections of the Museum. The nature and number of the specimens received were :—

Archaeological	939
Estampages	9
Plaster of Paris Casts	20
Photoprints	163
Numismatic	43
Ethnological	53
Art	13
Industrial	14
Other acquisitions	2
Total	...				1,286

Of the above, 101 were purchased; the rest being either presented or otherwise acquired. Detailed lists of the new exhibits thus added to the Museum from the date of the last Report up to the 31st March, 1921 are given in Appendices C to K. The subjoined short remarks may prove of interest :—

- (a) Amongst many objects obtained by the Curator from prehistoric sites the most important was a Palæolith scraper of Chellean type.
- (b) Flint cores and interesting palæolith knives, scrapers, borers and other implements: a terracotta dabber, broken carved plaques, bricks, iron sickles, an iron arrowhead and a metal steelyard were all obtained in the Sanjai valley near Chakradharpur.
- (c) A skull, with jaw bone, probably of early man was discovered near the same place.
- (d) All the rock paintings at the rock-shelter at Singanpur, Raigarh State, have been copied in colours in their original size and are a valuable acquisition to the Museum.

Palæolithic knives and a point of Magdalenian form were also found in the Singanpur shelter.

- (e) In the Mirzapur District the Curator found and copied 8 rock paintings at Likhunia and Kohbar which are situated about 4 miles north of Ahraura.

At Likhunia, Palæolithic implements were also obtained about a quarter of a mile from the locality of the paintings.

- (f) Seven palæoliths, 102 pieces of pottery, 10 iron artifacts and 1 large earthenware jar from prehistoric sites at Adiehanallur and Coimbatore, in the Madras Presidency, were very kindly presented to the Museum by the Madras Government.
- (g) Amongst archaeological objects of the historic period, the most important addition was the Gupta pillar brought from Bihar Sharif. This contains inscriptions of Kumar Gupta and Skanda Gupta of the Imperial Gupta Dynasty which have been edited by Dr. Fleet in the *Corpus Inscriptiarum Indicarum*. The scroll at the side of the pillar seems to show "shell" characters which deserve closer study.
- (h) A sandstone Persepolitan bull capital of an early period, a lion head with a fine polish from Masarh in the Shahabad District and a broken sandstone pillar from a Buddhist railing with a Kushan inscription from Hajipur; all collected by the late and deeply lamented Mr. Harnandan Panday, (Assistant Superintendent, Archaeological Survey) deserve special notice. The Committee is greatly indebted to the Archaeological Survey Department for the presentation of these objects.
- (i) Thanks to the donation of three thousand rupees given some time ago by the Maharaja Bahadur of Hutwa, the late Mr. Panday excavated the Bhairothan at Belwa, District Saran and obtained there a large quantity of pottery, terracotta objects, stone door jambs, a carved lintel and other articles which are, now, in the Museum. The Committee is very grateful to the Maharaja Bahadur for this donation and to the Archaeological Survey Department for having carried out the excavation.
- (j) Some 37 pieces of sculpture, mostly imperfect, were presented by the Superintendent, Archaeological Survey, Central Circle, Patna.
- (k) An early sculpture of the Naga image from Islampur in the District of Patna and a carved capital of a Gupta pillar from near Kumrahar site (both obtained by the Curator) are also recent interesting acquisitions.

(l) To the personal interest of Professor J. N. Samaddar, B.A., the Committee is indebted for a large stone slab containing mediæval inscriptions which was sent to the Museum from Rohini near Deogarh, in the Santal Parganas.

(m) Through the kindness of Maharaja Sir Bir Mitrodaya Singh Deo, K.C.I.E., Feudatory Chief of Sonpur, Orissa, the Committee has received another inscribed stone and also a sandstone figure of Marichi of crude workmanship.

From the last annual report the record was accidentally omitted of the welcome gift, by the Maharaja Sir Bir Mitrodaya Singh Deo, K.C.I.E., Feudatory Chief of Sonpur through Mr. B. C. Mazumdar, who edited the inscription, of a copper plate inscribed with words constituting a grant of land made by Ranabhanja.

(n) From His Honour Sir Edward Gait, K.C.S.I., K.C.I.E., (until recently Lieutenant-Governor of the Province) the Committee received a miniature copy in stone of a Bhuvaneswar Temple; an Oriya manuscript on palm leaves and three stone cannon balls which, found near the old Ahom fort at Kajali, Assam, were sent to Sir Edward Gait by Rai Bahadur Bhupen Ram Das.

(o) To His Excellency the Governor Lord Sinha, P.C., K.C.S.I., K.C., the Museum is indebted for three highly interesting letters dated in the latter years of the 18th Century and relating to the affairs of the East India Company.

(1) Letter, dated 19th May, 1773, from the Sadar Adalat to John Barton, Collector of Rajmahal, forwarding rules for procedure in the different Courts and directing him to keep a list of the rules and regulations issued : this is signed by Warren Hastings, W. Aldersey, P. M. Dacres, Thomas Lane, Richard Baswell and J. Graham.

(2) Letter, dated 10th May, 1781, from the Governor-General in Council appointing Augustus Cleveland to the charge of the new Court at Bhagalpur: signed by Isaac Baugh, Secretary, (Revenue Department).

(3) Letter, dated 21st July, 1781, from the Sadar Diwani Adalat announcing the deputation of Sir Elijah Impey to Murshidabad to hear civil appeals from the late Provincial Council : signed by Elijah Impey.

The Curator is informed that these documents have been preserved hitherto in the Record room of the Court at Bhagalpur.

6. Ethnology.—

(a) Rai Bahadur Sarat Chandra Roy, M.A., B.L., kindly presented a bull-roarer from the Singhbhum District and a bronze figurine used by the Mundas to represent an evil spirit and which are superstitiously placed in the house of a neighbour in order to bring him misfortune.

(b) As a parting gift from Sir Edward Gait, K.C.S.I., K.C.I.E., there has been received a Chinese Steelyard in a handsome case for which the Committee is very grateful.

(c) About 28 arrows and spears of varying shapes belonging to Andamanese, Naga and other tribes; some 10 musical instruments from different parts of India and 14 miscellaneous objects of Andamanese and Naga origin were kindly presented by the Trustees of the Indian Museum, Calcutta.

7. Numismatics.—This subject is dealt with in the Report of the Coin Committee.

8. Coin Committee.—The Committee's report constitutes Appendix A.

9. *Photographs and Drawings.*—One hundred and three photographs of important sculptures and buildings of the Province mentioned in the last report have been received from the Superintendent, Archaeological Survey, Central Circle, Patna and are now in the Museum. Some 60 photos were taken during the exploration of the prehistoric caves made by the Curator and have been duly added to the Museum collection; as well as 3 maps and 2 drawings of these sites which were prepared by the temporary draftsman appointed to accompany the expedition.

10. *Estampages.*—The Epigraphist (Babu Ashutosh Sircar, M.A., who has succeeded Babu Madho Sarup) took estampages of 11 inscriptions which have been placed with the Museum collections.

11. *Casts of Sculptures.*—Babu Shyamapado Misra, the Museum Modeller, has taken a cast of the large Statue with head which was found at Patna and which is now in the Calcutta Museum: he has also taken casts of the relief figures of Kubera and Chanda Yakshini which are in the Bharut Gallery of the same institution and of two Jataka scenes now housed there. These reproductions have all been now brought to the Patna Museum. The cast of the Kharavela inscription from Hathigumpha cave has been taken in 15 pieces and is also now on exhibit.

12. *Art and Industry.*—(a) Some 13 objects representing specimens of South Indian Art were added to the Art section. They were kindly presented by the Madras Museum.

(b) The Nagpur Museum has been good enough to present 14 pieces of silk cloth which were manufactured in the Sambal District. As that district has been transferred to this Province the Curator of the Nagpur Museum thought that these fabrics would form an interesting addition to the Patna Museum.

13. *Geology.*—Nothing has been added to the Geological section of the Museum. Through the Local Government the Geological Survey of India has been approached with the view of completing the Provincial collection; and important additions are expected in the course of next year.

14. *Library.*—Apart from Gazettes and Reports, the total number of books and pamphlets added to the library during the year was 61. The total number of books in the Catalogue is 248.

15. *Government grants.*—(a) A grant of Rs. 2,000 was received from the Government of India through the Director-General of Archaeology for the exploration of prehistoric caves by the Curator. The Committee is most grateful to the Director-General of Archaeology for this liberal gift to the Museum and ventures to think that the result of the Curator's arduous and praiseworthy efforts, will, when carefully investigated, exhibit results of unexpected scientific value.

(b) By a communication No. 142-E., dated the 13th January 1921, the Local Government gave a grant of Rs. 374 for the purchase of epigraphical literature. Unfortunately this sum could not be utilized as, notwithstanding the Curator's attempts to accelerate their despatch, the books ordered were not received during the year under review.

16. *Finances.*—As will be seen from Appendix B, receipts and expenditure during the past year amounted respectively to Rs. 18 and Rs. 23,766-13-5. The net expenditure on the Museum was thus Rs. 23,748-13-5. This figure includes the extraneous grants of Rs. 2,000 made by the Government of India and the splendid donation of Rs. 6,000 for providing show cases made by the Maharaja of Sonpur.

17. *General.*—During the year under report the Curator was away on tour on duty for 139 days. He visited the Gupteswar cave in the Shahabad District; Konarak; Lucknow; Ranchi; Calcutta; Madras; Mahaballipuram; Madura; Chakradharpur; Naharpalli; Chunar; and Chhatu near Ahaura in the Mirzapur District.

His work, so far as the Committee can judge, has been very useful and important: and the following short resuine of what he has done will probably be of general interest:—

- (a) In April 1920 he visited the Gupteswar cave near Sasaram in search of prehistoric paintings and palaeoliths. He reports that there are no prehistoric paintings at that locality and that as regards palaeoliths the trenches which the funds at his disposal permitted him to dig were so very shallow that he does not feel justified in expressing any confident opinion as to the possible result of more extended excavation. There is no doubt, however, in his view that the cave ought to be fully explored but owing to heavy falls of rock and other technical reasons any deep work in this limestone cave would prove a costly affair.
- (b) In September he travelled to Konarak in order to select an ancient iron beam from the Temple there for the Museum; this has since been removed to the Museum. Around this temple he noticed a large number of detached sculptures of very fine design and, if possible, they might be acquired for preservation in the Museum.
- (c) In October he paid a visit to the Museum at Lucknow. He recommends that the arrangement of the well-known Coin Cabinets there should be adopted at the Patna Museum as soon as funds permit that proposal to be carried out. He also arranged for an exchange of certain antiquities with the Lucknow Museum which project is now under consideration.
- (d) In November he visited Ranchi and obtained interesting palaeoliths from the banks of the Subarnarekha river near Namkum.
- (e) He next went to Calcutta and obtained there a gift of about 52 ethnological objects from the Indian Museum.
- (f) He then proceeded to Madras where he studied the rich prehistoric collection of that Museum. He was fortunate in securing from the Madras Museum a large quantity of prehistoric pottery, iron objects and several interesting palaeoliths. Two of the pieces of pottery brought by him from Madras contain ownership marks which by some experts are thought to be the original shape of Brahmi characters.
- (g) From January to the end of March he was engaged in his important exploration of prehistoric caves and sites. He first visited Chakradharpur where he made excavations at 3 places; he next went to Singanpur and made copies of paintings in the rock-shelter there. From Singanpur he went to Mirzapur and, halting at Chhatu, made copies of prehistoric paintings at Likhunia, Kohbar and Bhaldaria. From Chhatu he passed to Bijaygarh where again copies of prehistoric paintings were taken. The work at Bhaldaria and Bijaygarh was actually done in April and May 1921 so does not strictly come within the scope of the report but is here mentioned in order to complete the account of his itinerary.

JOHN A. BUCKNILL,

President, Managing Committee, Patna Museum.

APPENDIX A.

REPORT OF THE COIN COMMITTEE.

1. Mr. M. Ghosh (the Curator) continues to be Secretary of the Coin Committee and carried on the work of the Coin Cabinet. The Museum Committee is also the Coin Committee. Owing to pressure of other work not much has been done during the past year. The Government has been asked by the Committee to appoint some more members some of whom have special numismatic knowledge. From the Government grant sanctioned for the purchase of antiquities it is hoped that some suitable purchases of coins may be made in the current year to fill up important gaps in the Museum's series of coins. But purchases of coins with public money can only be made with the greatest caution.

2. The number of coins in the register at the close of last year was 1,227 ; since then only 43 have been added. Of these 42 were from Treasure Trove : one was presented by the Maharaja Bahadur of Sonpur.

3. Of these 43 coins added to the Cabinet, 10 were of gold, 30 of silver and 2 of copper.

Of these coins two gold Kedar Shahi coins are the earliest. On the obverse there is *Kedar* or *Kidar* under the right arm and *pase* under the left arm in one and *sa* under the left arm in the other. Next in chronology comes a small gold coin of Choda Gangadeva.

Of the Moghal coins there is a silver coin of Shah Shuja dated 1068 Hijri with regnal year 1 ; two silver coins of Shah Jahan with regnal year 25 ; of Aurangazeb we have seven coins issued from the mints of Itawa and Surat ; one silver coin of Farrukhsiyar issued from Shahjahanabad ; two silver coins of Alamgir II issued from Azimabad and one from Ellichpur ; seven silver coins of Shah Alam II, five silver coins of Muhammad Shah issued from Surat and Shahjahanabad and one silver coin of Ahmad Shah issued from Katak.

There are two silver coins of Muhammad Shah of Gujrat.

Of the South Indian gold fanams there are four ; two belonging to Ram Raya, one to Viraraya and one to Devaraya.

APPENDIX B.

STATEMENT SHOWING RECEIPTS AND EXPENDITURE OF THE PATNA MUSEUM FOR THE YEAR ENDING 31ST MARCH 1921.

LIST OF OBJECTS IN THE ARCHÆOLOGICAL SECTION ADDED TO THE
PATNA MUSEUM, PATNA, UP TO THE 31st MARCH 1921.

I.—ANTIQUITIES OF THE PREHISTORIC PERIOD.

PALÆOLITHIC ANTIQUITIES.

Register No.	Description.	Date if known.	Locality.	Donor or Contributor.	Remarks.
1	2	3	4	5	6

LOWER PALÆOLITHS.

3462	Paleolith, 7½" long, quartz, brown with irregular cutting edge. Shape irregular.	Obelean	... Madras	... Madras Museum.	
3463	Paleolith, 6½" long, quartz, yellowish brown with irregular cutting edge, pebble butt, almond shaped.	Ditto	... Ditto	... Ditto.	
3464	Paleolith, 4½" long, quartz, yellowish brown, irregular cutting edge, almond shaped.	Ditto	... Ditto	... Ditto.	
3465	Paleolith, 3½" long, quartz, brown, irregular cutting edge, pebble butt.	Ditto	... Ditto	... Ditto.	
3466	Paleolith, 2½" long, quartz, light brown, irregular edge, pebble butt.	Ditto	... Ditto	... Ditto.	
3509	Paleolith, 6" long, quartz, greyish brown with irregular edge; probably scraper.	Ditto	... Sanjai valley, Chakradharpur near Potka village, Site No. III. From the surface.	Acquired by Curator during prehistoric exploration.	
3573	Paleolith, 3½" long, red quartz, almond shaped ect, (Note book No. 19.)	Ditto	... Singanpur, foot of the hill, 1 ft. below surface.	Excavated by Curator during prehistoric exploration.	
3574	Paleolith, 1½" × 1½" long, reddish grey, scraper.	Achenleas.	... Singanpur, foot of the hills, from surface.	Acquired by Curator during prehistoric exploration.	
3467	Paleolith, 2½" long, quartz, blackish brown, probably scraper.	Mousterian	... Madras	... Madras Museum.	
3468	Paleolith, 3½" long, quartz, yellowish brown, probably scraper.	Ditto	... Ditto	... Ditto.	
3659	Paleolith, 1½" long, quartz, white with black marks, scraper.	Ditto	... Likhunia near Ahraura. From the surface.	Acquired by Curator during prehistoric exploration.	

UPPER PALÆOLITHS.

3582	Paleolith, 1½" long, agate, bluish white, with retaking, indented edge.	Aurignacian	... Singanpur. Foot of the hill, 2 ft. below surface.	Excavated by Curator during prehistoric exploration.	
3634	Paleolith, 1½" long, flint, knife.	Ditto	... Sanjai valley, Chakradharpur. Site No. II. From the surface.	Acquired by Curator during prehistoric exploration.	
3654	Paleolith, 1½" long, crystal, scraper with retaking at the back.	Ditto	... Sanjai valley, Chakradharpur. From the surface.	Ditto.	
3655	Paleolith, 1½" long, flint, knife, with retaking at the back.	Ditto	... Ditto	Ditto.	
3656	Paleolith, 1½" long, flint, scraper, with retaking at the back.	Ditto	... Likhunia near Ahraura. From the surface.	Ditto	
3657	Paleolith, 1½" long, knife, with retaking at the back.	Ditto	... Ditto	Ditto	
3647	Paleolith, 1½" long, flint, scraper, with retaking at the back.	Ditto	... Sanjai valley, Chakradharpur, 3 ft. from the top of the plateau.	Ditto	
3548	Paleolith, 1½" long, flint, scraper, with retaking at the back.	Ditto	... Ditto	Ditto	

Register No.	Description.	Date if known.	Locality.	Donor or Contributor.	Remarks.

I.—ANTIQUITIES OF THE PREHISTORIC PERIOD—*contd.*ROCK PAINTING—*contd.*

3683	Likhunia Rock Painting. Plate I. Same size. The subject of the painting is probably the catching of a wild elephant in a forest where men are engaged in driving a game. On the extreme left-hand lower corner two tigers are shown as running away. Similarly on the right-hand top corner two more tigers have been portrayed as engaged in leaving the central tract. Below this are hills which are indicated by rays coming out of an arched object. Near this are three deer which are being driven into an area, surrounded by a peculiarly constructed trap, by three men, one painted in black, the second in white and the third in white and red. The central object of the scene is a driver on a big elephant armed with a long pointed spear-like weapon in one hand and in the other a round object probably a shield. He is eagerly pursuing a tusker elephant in front. Amongst his retinues are shown in the upper field two archers, two sword-men with shields and a man without any armour. Below him are a man on foot with a sword and a shield and three horses of which one has lost its rider. The other two are being ridden by men armed with sword and shield. In front of the elephants are traps with a central one of rectangular form; the rest being drawn in lines. On the extreme left of the painting are drawn three men busily engaged in driving the game. Below the leg of the big elephant is painted a figure of man in black which appears to be an older painting. The colour used in this painting are deep and light red, yellow, vermillion, Chinese black, burnt sienna and mauve,	Unknown	...	Likhunia near Ahaura ...	Copied on paper in water colour under the supervision of the Curator during his prehistoric exploration.
3684	Likhunia Rock Painting. Plate II. Same size. This is a painting depicting the catching of birds (probably peacocks). On the left are men—some on foot and others on horse. In the centre are peacocks. In the right are shown birds which have been entangled in the trap. On the extreme right is portrayed a design: probably an elaborate trap. The colour used in the painting are light and deep red, yellow and black.	Ditto	...	Ditto	Ditto

**ANNUAL REPORT
OR
THE MANAGING COMMITTEE
OF
THE PATNA MUSEUM
FOR
YEAR ENDING 31ST MARCH 1922.**

1. Managing Committee.—In the course of the year under report there were several changes in the Managing Committee. Pandit Hirananda Sastri, M.A., Superintendent, Archaeological Survey, Central Circle, Patna, and an *ex-officio* member of the Managing Committee, was transferred to Ootacamund, Madras, as Superintendent of Epigraphy. He was succeeded by Mr. J. A. Page, A.R.I.B.A. Mr. P. C. Manuk, Barrister-at-law, High Court, Patna, Professor Jadu Nath Sarkar, M.A., Premchand Roychand Scholar, I.E.S., Senior Professor of History, Ravenshaw College, Cuttack, and Rai Bahadur Radha Krishna Jalan, Rais, Patna City, were appointed additional members of the Managing Committee of the Museum their appointment being notified in the Gazette dated 29th June 1921. The Committee met five times during the year and disposed of current duties.

2. Staff.—Babu Adhar Chandra Ghosh, B.Sc., was appointed as Chemical Assistant on the 18th July 1921 in place of Babu Sadhu Saran, B.Sc., who resigned his post on the 9th March 1921.

The post of Epigraphist was sanctioned for a period of one year from the 3rd December 1920 and accordingly terminated on the 2nd December 1921. The Managing Committee did not consider it necessary to ask Government to continue the maintenance of this officer as it was thought that the Curator could take estampages of inscriptions in addition to his other duties.

The post of the peon who worked with the Epigraphist has been sanctioned for a further period of two years with effect from 3rd December 1921.

Babu Kanai Lall Banerjee, Head Clerk, reverted to his post in the Patna College on 1st November; he could not be confirmed in his appointment as he was unable to produce the requisite certificate of local domicile.

Mr. Ayub, who was marksman Clerk, held the vacant post for the month of November and Babu Ramsinhasan Singh was appointed to the position temporarily and officiated from 1st December 1920 to 28th July 1921. The vacancy was duly advertised and Babu Sahadev Pani, an Oriya Brahmin, was selected on probation for six months. He joined on 29th July 1921 and has submitted the necessary medical certificate. He has now been confirmed in his position.

The post of Marksman Clerk has been sanctioned for a further period of two years from the 1st of January 1922.

The appointment of an additional chaukidar was sanctioned by Government from the 1st of July 1921.

It was considered that the work of Rai Bahadur Sarat Chandra Roy, M.A., B.L., who is a member of the Managing Committee and the Anthropological Secretary to the Bihar and Orissa Research Society, might be brought into closer and more useful connection with that of the Museum if he received his allowance for research work through the Museum. The Government was approached upon the subject and sanction to the proposal has been received with effect from the 1st April 1922, i.e., the beginning of the coming year.

3. *Working of the Museum.*—It is gratifying to be able to report substantial progress in the work of the different sections of the Museum. The important feature of the year was the opening of the Museum to the public from the beginning of June 1921. The average number of visitors per day is about 40 which seems encouraging in view of the fact that the building is so far from the city.

4. *Research Work.*—The Curator visited Hossangabad and copied some newly-discovered prehistoric paintings. His reports on prehistoric exploration with plans and sections of caves, maps of the places visited and photos of the paintings and other antiquities discovered are being prepared and it is hoped that the whole work will be completed by the end of June. The monograph will be sent to the Director-General of Archaeology who has agreed to publish it in illustrated form.

The Curator has been further engaged in studying the Pataliputra antiquities excavated by Dr. Spooner; a detailed report of these is in course of preparation and will be published separately as a supplement to the Museum Report.

Some time ago 2,873 punch-marked coins were found at Patrah in the district of Purnea. This find was, for eight years, with Mr. R. D. Banerjee, the Treasure Trove Officer, but the coins have now been brought back to the museum by the Curator. A detailed descriptive list of the coins with notes on the origin of ancient Indian coins and measures and on the different symbols used on the coins is being prepared by the Curator and will be published separately as a supplement to the Museum Report.

5. *Acquisitions.*—During the year under review considerable additions were made to the exhibits in the various sections of the Museum. The nature and number of the specimens received were:—

Archaeological	1,966
Estampages	138
Plaster of Paris Casts	9
Photo prints	40
Numismatic	3,743
Ethnological	4
Art	13
<hr/>			<hr/>
Total	5,911

Of the above, 392 were purchased, the rest being either presented or otherwise acquired. A detailed list of the new exhibits thus added to the Museum from the date of the last report up to the 31st March 1922 are given in Appendices C to H.

The subjoined short remarks concerning the acquisitions may prove of interest:—

(1) Copies of rock paintings of Hosangabad which place the Curator visited in the month of March are valuable acquisitions to the Museum.

(2) In exchange for some duplicate antiquities from the Patna Museum a fine harpoon of the Copper Age has been presented by the Lucknow Museum and a representative set of stone implements ranging from early Palaeolithic times to the Neolithic age has been received from the University Museum of Archaeology and Ethnology, Cambridge, England. They form valuable additions to the Museum in the prehistoric gallery.

(3) Early in the year under report, the Curator copied paintings at Bhaldaria and Bijaygarh. This year he again visited the Bijaygarh fort in the Mirzapur District and made copies of the Gupta inscriptions in red ochre in the rock-shelter there besides taking photos of the rock shelter, fort and other interesting buildings within the fort.

(4) Amongst the archaeological objects of the historic period the most important additions were the Pataliputra antiquities excavated by Dr. Spooner by means of the liberal donation made by late Sir Ratan Tata of Bombay. Amongst the interesting antiquities (of which a detailed catalogue will be published separately) the following are worthy of particular note :—
 (a) Glass seals(?) with Brahni inscriptions of the 3rd or 2nd Century B. C., (b) fine terracotta figurines with peculiar coiffure and drapery, (c) terracotta head with smiling face of a child and a beautiful head of a female, (d) one broad sword, (e) a terracotta plaque representing Bodhi Gaya of the 2nd Cent. A. D. with Kharosthi writing, (f) two gold Kushan coins, (g) one gold signet ring with Makara, (h) one long gold bead. These are objects the like of which are probably not to be found in any of the other Museums in India.

(5) Among Mediæval antiquities a copper plate, undeciphered, written in mediæval characters, has been presented by Babu Manmatha Nath Sen, Subdivisional Officer, Jamtara, Santal Parganas, through the Superintendent, Archaeological Survey, Central Circle, Patna. The Committee is extremely grateful to Babu Manmatha Nath Sen for this welcome gift.

(6) A fine red sandstone figure of Tara was kindly sent by the Commissioner of Orissa Division, Cuttack. The Committee is much indebted to him for this handsome specimen.

(7) Amongst antiquities received from the Lucknow Museum are some clay votive seals with figures of Buddha and Bodhisattva in different postures from caves at Takalkot, Puranz, West Tibet; carved bricks from Kasia, the ancient Kusinagara—the place of Mahaparinirvan (death) of Buddha; potteries and terracotta figurines from Saheth-Maheth, the ancient Sravasti associated with many events of Gautama Buddha's life. All these are also important additions to the Museum.

(8) Some ancient bricks, obtained whilst digging in the Patna maidan was being carried on in connection with the preparations for the visit of His Royal Highness the Prince of Wales, were secured by Professor J. N. Samaddar, a member of the Managing Committee.

(9) *Ethnology*.—Amongst the additions to this gallery the curious dress of the Banjara woman, one of the nomad tribes of United Provinces, is of special interest.

(10) *Numismatics*.—(a) Of the early coins, 2,873 punch-marked coins found at Patraha in the Purnea District are very interesting. Some of the symbols represented on the coins are important and remarkable. Mr. R. D. Banerjee, Treasure Trove Officer of this Province and Superintendent, Archaeological Survey, Western Circle, Poona, is writing a memoir on this hoard which will be published by the Director-General of Archaeology. One hundred and twenty-five coins selected from the find are to be illustrated.

(b) A collection of coins of the Indo-Greek, Indo-Scythian, Indo-Parthian and Kushan Kings has been purchased by the Curator.

(c) A fine lot of gold coins of the Imperial Guptas together with numerous silver coins of the Moghuls issued from the Patna and Cuttack mints were purchased at the recent auction sale at Amsterdam, Holland, of the well-known collection belonging to Lord Grantley.

(d) Some lead coins of the Andhras have been received in exchange for duplicate coins of Sher Shah which were in the Museum for sale.

(11) *Coin Committee*.—The Committee's report, giving an account of the coins added to the Coin Cabinet is given in Appendix A.

(12) *Photographs and Drawings*.—Some 40 photographs were, during the exploration of the prehistoric caves, taken by the photographer of the office of the Superintendent, Archaeological Survey, Central Circle, Patna, who was kindly lent to the Museum for a period of three weeks. The Committee is thankful to the Superintendent for this kind aid. Two drawings of prehistoric sites were prepared during the year.

(13) *Estampages*.—The Epigraphist (whose post was abolished from 3rd December 1921) took an estampage of the inscription on the pillar of Asoka at Lauriya Nandangarh near Bettiah, district Champaran and visited other places. The Curator, who went to Calcutta, took estampages of the important inscriptions of the Bharhut gallery. While visiting Bijaygarh he took estampages of the mediæval inscriptions in the fort.

(14) *Casts of Sculptures*.—The Museum modeller worked in the Indian Museum during the year under report. He has taken casts of three Jataka scenes from the Bharhut gallery; of the Sanchi Female bracket figure; of the Buddha figure of the Gupta period; of Hercules fighting the lion and of a Railing post of the Kushan period. He has prepared a small model of the female figure from Didarganj in the Museum. It is hoped that this type of model and others may be prepared and put on sale in the future so that copies of interesting works of Indian Art may be made available to the general public.

(15) *Art and Industry*.—Some specimens of Jaipur Brass work were added to the Art Section.

(16) *Geology*.—The Geological Survey of India has been asked to fill up the gaps in our collection, but as yet no specimens have been received. They have, however, placed the Museum on the distribution list of their publications. A set of Reports and Memoirs published by the Geological Survey of India has been received. The Geological Survey has been asked to present the Museum with a Geological map of this Province which they have promised to do as soon as the map is ready.

(17) *Library*.—Apart from Gazettes and Reports the total number of books and pamphlets added to the library during the year was 242. The total number of books in the Catalogue is 490.

(18) *Government Grant*.—A grant of Rs. 1,000 was received from the Local Government for purchase of antiquities. Out of that sum very valuable coins have been purchased and added to the Museum Collection.

(19) *Finances*.—As will be seen from Appendix B receipts and expenditure during the past year amounted to Rs. 20 and Rs. 18,361-11-10 respectively. The net expenditure on the Museum was thus Rs. 18,341-11-10.

(20) *General*.—During the year under report the Curator was away on tour on duty for 151 days. He visited Likhunia, Bhaldaria and Bijaygarh in the Mirzapur District, Simla, Lucknow, Bihar, Rajgir, Nalanda, Agra, Mathura, Jaipur, Ajmere, Udaipur, Baroda, Bombay, Poona, Hyderabad, Calcutta, Hosangabad, Nagpur, Singanpur in the Raigarh State and Chakradharpur.

His work so far as the Committee can judge, has been very useful and important; the following short resume of what he has done on tour will probably be of general interest:—

(1) In April and May 1921 he was working at Bhaldaria and Bijaygarh copying prehistoric paintings. He again visited the above places in March 1922.

(2) In September he went to Simla to show the Director-General of Archaeology in India the whole of his rock paintings and other prehistoric antiquities. The Director-General has agreed to publish the report of the explorations in the form of a Memoir of the Imperial Archaeological Department illustrated with plates of which some are to be in colours. On his way back to Patna the Curator halted at Lucknow and brought away the antiquities given by the Lucknow Museum in exchange for specimens from the Patna Museum.

(3) He visited Rajgir, Nalanda and Bihar and reported on the illicit traffic which is going on in those places in antiquities. His report has been sent to Government for necessary action.

(4) In November and December he visited Agra and Mathura to purchase antiquities; thence he went to Jaipur where he purchased a quantity of

Jaipur Brassware and visited the Museum there. He then visited Ajmero where he reports that there are some unique images of Brahmanical deities of which casts ought to be kept in the Museum. He next visited Udaipur Museum where there are very interesting historical inscriptions not as yet published. Subsequently he visited Baroda in connection with the selection of exhibits which the Baroda Museum proposes to present to the Patna Museum.

Later on he went to Bombay where he visited the newly-opened Prince of Wales Museum in connection with the exchange of antiquities. After this the Curator went to Poona to take delivery from Mr. R. D. Banerjee, of the 2,873 punch-marked coins previously referred to. From Poona the Curator went to Hyderabad in order to arrange for exchange of prehistoric antiquities with that Institution.

In February he went to Calcutta to consult Geological and Art experts there as to the importance of the paintings and antiquities of his prehistoric explorations. In their opinion the skull found is not very ancient. They however, consider the paleoliths collected by the Curator and the paintings copied by him as of great interest.

Whilst in Calcutta the Curator attended the Second Oriental Conference and read two papers—one upon the religion of Asoka and the second a short summary of his prehistoric explorations.

In March the Curator was again out on tour and visited Mirzapur as mentioned above. He then went to Hosangabad where he copied rock paintings, the information of the existence of which was supplied by the Superintendent, Archaeological Survey, Central Circle, Patna, on the authority of the Deputy Commissioner, Hosangabad. He next visited Nagpur Museum. Finally visited Singanpur and Chakradharpur as there was there some work to be done in connection with the prehistoric exploration which could not be finished last year.

JOHN A. BUCKNILL,

*President, Managing Committee,
Patna Museum.*

APPENDIX A.

REPORT OF THE COIN COMMITTEE.

1. Mr. M. Ghosh (the Curator) continues to be the Secretary of the Coin Committee and carried on the work of the Coin Cabinet. The Coin Committee decided on the suggestion of the Curator that 2,873 Coins found at Patralia, district Purnea, which were in the custody of Mr. R. D. Banerjee for Treasure Trove report for nearly eight years ought to be brought to the Patna Museum. Since then the coins have been brought to the Museum. The Curator is studying these coins and intends to write a note on the symbols used thereon and on other points in connection with this big hoard.

2. The number of coins in the register at the close of last year was 1,270; since then 3,741 coins have been added. Of these 2,911 were from Treasure Trove, 289 purchased and 541 presented.

3. Of these 3,741 added to the Cabinet 18 were of gold, 2,975 of silver, 738 of copper and 10 of lead.

4. *General notes on the new acquisitions.*—Of the Purnea hoard of punch-marked coins it may be mentioned that they form an unique collection of the early coinage of India. Some of the symbols are very interesting. Besides the usual solar symbol there are representations of the elephant, deer, dog, panther, and pond with fish, a cow eating vine leaves, a scale, the three-arched *chaitya* surmounted by crescent, caduceus, trisekulis, and of the peacock sitting on a mound. A careful examination of the whole hoard will doubtless result in the acquisition of new facts relative to this ancient currency.

Of the Pataliputra coins excavated from Kumrhar and Bulandibagh the earliest are silver and copper punch-marked coins; then come rectangular cast coins of which on the obverses there appear the representations of a sacred tree within enclosure, a cross-like symbol and the three-arched *chaitya* whilst on the reverses there are shown the elephant, a triangular symbol and the taurine sign. These were succeeded by circular cast coins with the three-arched *chaitya* on the obverse and the elephant on the reverse; then come Indo-Kushan coins of Kaniska and Vasudeva. After that there are Gupta copper coins. Then there is a big gap until we come to Muhammadan coins of Shah Alam.

Among the coins purchased, there are rare coins of Indo-Greek kings such as Lysias, Philoxeos, Strato I, Eueratides and Antalcidas. Next to this there are coins of Maues, the Indo-Scythian king and Azes I and II of the Indo-Parthian Dynasty followed by Abdagases, Gondo-pharnes and Spalahores. The Indo-Kushan types are represented by coins of Kujula Kadphises, Vima Kadphises and Kanishka; some silver coins of Ohind close the Punjab Kings. Of the Andhra coins we have got eight lead coins of Satakarni. Of the Imperial Guptas we have gold coins of Chandra Gupta I, Samudra Gupta, Chandra Gupta II and silver and copper coins of Kumar Gupta, Skanda Gupta and silver coin of Buddha Gupta.

Of the Mediæval coins we have silver coins of the Gadhiya Dynasty of Northern Konkan, Bombay and gold coins of the Haihaya Dynasty of Mahakosala or Western Chedi belonging to Prithvi Deva (1140-60 A.D.), Jajalla Deva (1160-75), Ratna Deva (1175-90 A.D.)

One gold punch-marked coin from the Central Provinces is interesting as indicating that an old type of punch-marked coin was extant in some parts of India even as late as the Mediæval Ages. Of the Moghul coins the most interesting are the gold coin of Akbar and silver coins of Shah Jehan issued from Patna and silver coins of Shah Jehan and Jahandar Shah issued from Katak (Cuttack).

JOHN A. BUCKNILL,
President, Coin Committee,
Patna Museum.

NEOLITHIC ANTIQUITIES.—concl.

3924	Neolith, 4½" long, of flint, celt ...	Neolithic age	... Walton, England	... University Museum of Archaeology and Ethnology, Cambridge, London.	
3925	Neolith, 5½" long, of flint, celt ...	Ditto	... Thetford, Norfolk, England.	Ditto.	
3926	Neolith, 3½" long, schist, celt ...	Ditto	... Undley, Suffolk, England.	Ditto.	
3927	Neolith, 4½" long, schist, celt ...	Ditto	... Mondford, Norfolk, England.	Ditto.	
3928	Neolith, 4½" long, schist, celt ...	Ditto	... Suffolk, England	...	Ditto.
3929	Neolith, 2½" long, flint, hammer	Ditto	... Ditto	...	Ditto.
3930	Neolith, 2" in diameter, granite, hammer stone.	Ditto	... Ditto	...	Ditto.

BRONZE AGE.

3814	Bronze axe-head, 8½" long (No. 5)	Bronze Age	...	District Hardoi (U. P.)	Ditto.
3815	Bronze, axe-head, 7½" long	Ditto	...	Bithur, District Cawnpur (U. P.).	Ditto.
3816	Bronze axe-head, 6½" long (No. 211).	Ditto	...	Raipur, District Bijnour (U. P.).	Ditto.
3817	Bronze harpoon, 1' 2" long, with two barbs, two hooks and two side projections in one of which are holes for binding string (No. 228).	Ditto	...	Ditto	Ditto.

PRE-HISTORIC PAINTING.

3945	Hosangabad Rock-Painting :— Painting of an elephant in light yellow colour. The modelling of the elephant is nice. Over the elephant have been drawn paintings in red ochre of which one looks like a giraffe with its long neck and a curious boomerang-like implement at its neck, following the animal is a man throwing something from a long-necked horse-like creature. Below him is a warrior with a bow, two arrows and quiver at his back running after the animal.	Unknown	...	Hosangabad, Central Provinces	Copied under the supervision of the Curator in water colours during his pre-historic exploration.
3946	Hosangabad Rock-Painting :— Painting of a buffalo-like animal with slender leg and a long tail.	Ditto	...	Ditto	Ditto.
3947	Hosangabad Rock-Painting :— Painting of a buffalo-like animal with slender leg and a long tail in red colour.	Ditto	...	Ditto	Ditto.
3948	Hosangabad Rock-Painting :— Painting of a rhinoceros-like animal in red colour.	Ditto	...	Ditto	Ditto.
3949	Hosangabad Rock-Painting :— The painting is that of four warriors marching out in great enthusiasm; of which three are armed with bow and two arrows and a quiver while the fourth warrior, who heads the procession, is armed with a single arrow.	Ditto	...	Ditto	Ditto.
3950	Hosangabad Rock-Painting :— The painting is of warriors, three of whom are on horseback and one on foot. They are armed with a broad sword and shield. The man on foot is holding the shield over the head while other warriors have got their shields hanging at the sides.	Ditto	...	Ditto	Ditto.

3951	Torso of a male figure, height 2' 2" of sand-stone, wears necklace, dhoti and chaddar. Hand broken.	Ditto	Unknown	Superintendent, Archaeological Survey, Central Circle, Patna.	
MEDIÆVAL BRAHMANICAL					
3745	Tara, height 5' 6" including tenon, of red sand-stone; seated on a full-blown lotus in the <i>Padmasana</i> attitude with one leg closed and another resting on a full-blown lotus; (holding in her) left hand the stem of a half open lotus-bud of fine workmanship; wears beaded <i>mukuta</i> with three conical projections with ribbons ending in graceful knots. The hair is bound in a knot on the right side of the head with ears decorated with six-budded ornament in the upper part and lotus shaped <i>karnaphali</i> in the lower part, the lobe of the ear being kept together by a beaded clip. In the forehead is the third eye. Nose damaged. Wears two small bead here, one flower pendant, necklace and one two-stringed bead here. Tip of fingers of the left hand damaged, right hand broken from the elbow, has wristlets and bangles on the lower part of the hand and jewelled anklet on the upper part. Wears fine <i>Sarphi</i> , edges of which are shown on the highly developed breasts and on the legs, being kept in a position by an elaborately worked jewelled waist ornament having two strings of beads and two herring-bone shaped strings with small bell pendants of graceful shape; has got small bell pendants round ankles. The figure is in a niche with three-toiled arch, decorated by three bands; the outermost band is of flower petal the middle band of bead and the innermost of lozenges and embossed circles in relief alternating one another. The arch rests on brackets with triangular shaped projecting band in the middle and decorated with lozenge and embossed circle in relief on the top and bottom. These brackets rest on pillars standing on vases and decorated by hanging bell and bead strings. In the middle of the arch at the top is the <i>Kritimukha</i> on the tongue of which is a <i>Dhyani</i> <i>Buddha</i> ; <i>Abhayamudra</i> seated in a niche in a votive stupa. <i>Krishnabha</i> wears moustache and from the two sides of the face jeans floral leaves of conventional form. Behind <i>Kirtimukha</i> are seen sides of an <i>anala</i> of a temple with <i>sikharas</i> of three tiers and upturned edges. On either	Medieval	Cuttack	Commissioner of Cuttack Cuttack.

MEDIÆVAL : BRAHMANICAL—contd.					
3745 contd.	sides of the temple in relief are two <i>Dhyani-Buddhas</i> , one on the right side in <i>Mani-sparsha mudra</i> , another on the left in <i>dhyati-mudra</i> seated in niches of a votive stupa cut in relief. Lower down are two more <i>dhyani-Buddhas</i> ; the right side figure in <i>sittha mudra</i> and the left side one in <i>mani-sparsha mudra</i> seated as before in niches of a votive stupa in relief. On either side on the top corners are <i>Kinnaris</i> floating amongst clouds; the right side figure holds in the right hand <i>bajra</i> and in the left <i>bajra</i> or thunder-bolt, the left side one holds a bud with amrita-blends hanging from back; standing on the brackets on the either sides are female attendants in <i>trilokangas</i> attitude holding <i>chomara</i> (fly-whisk) in the left hand, with right hand resting on the hip. On either side of the central deity and seated on lotus in <i>lalitasana</i> attitude are two female attendant goddesses; the right side deity holding in the right hand mustard apple and in the left lotus, the left handed figure is the <i>Sakti</i> of <i>Hayagriva</i> holding <i>sherry</i> in the right hand while the left hand is broken. Above these figures and standing on the blind ledge are two conventional lions with backs against pillars. Below the lotus seat of the central figure and on the right side of the lotus stem is the donor with moustache and beard holding bud, with four female figures, of which two behind him appear to be his wives with better ornaments and the other two on the left of the stem are female attendants with simple ornaments. Above the figure of donor and seated on the lotus leaves up are two more females in <i>maharaja</i> (<i>lalitasana</i>) attitude. Behind these standing on the conventional leaves are an elephant representing birth of Buddha and a horse signifying the <i>rasha-bhijnakramana</i> (going out) of Buddha. On the pedestal below the stem of the lotus are two letters in mediæval characters which can be read as <i>rede</i> , probably, the name of the sculptor.	Medieval	In Cuttack ...	Commissioner of Cuttack, Cuttack.
